FRAZIER & DEETER, LLC  
CERTIFIED PUBLIC ACCOUNTANTS AND ADVISORS

## **ACCOUNTING AND RISK ADVISORY SERVICES**

The Accounting and Risk Advisory Services (ARAS) of Frazier & Deeter assists public companies of all sizes with their technical accounting and financial reporting issues. We can assist you with complex issues such as revenue recognition, leases, stock options, debt versus equity assessments, derivatives and other difficult accounting and reporting areas.

### **THE ADVANTAGE**

The competitive advantage your company receives comes from our ability to deliver the services you need – when you need them. Your team will have the authority to issue final advice and guidance without a series of cumbersome review policies or procedures. You will also benefit from improved financial accounting solutions and disclosures provided by professionals with extensive experience working with publicly-traded companies. In addition, we can become an integral component of your quality control and review systems.

### **THE TEAM**

ARAS is led by Bill Godshall, who has over 15 years of public accounting experience, much of which was spent working with large, publicly-traded companies. He is also a former inspection leader with the Public Company Accounting Oversight Board (PCAOB). The ARAS team is a combination of professionals with specific public company expertise, and auditors and consultants possessing an understanding of your industry and financial reporting issues. This cross-functional approach gives you a significant advantage in preparing timely, accurate financial statements.

**To find out how your company can benefit from the services of the ARAS, please contact Bill Godshall at [bill.godshall@frazierdeeter.com](mailto:bill.godshall@frazierdeeter.com) or 404.253.7500. References are available upon request.**

## AUDIT QUALITY ADVISORY SERVICES

Accounting firms registered with the PCAOB are subject to inspection periodically. The Audit Quality Advisory Services (AQAS) can leverage the experience of former PCAOB leaders to consult on issues that may arise as a result of pending and completed inspections. No other source can provide these services with the same level of insight and integrity as the Frazier & Deeter AQAS Team.

AQAS is led by Seth McDaniel, a former Associate Director (AD) with the PCAOB, who brings over 15 years of relevant experience to Frazier & Deeter. Seth was the youngest AD with the PCAOB and led inspections of both international and local firms. Bill Godshall will assist Seth as needed. We believe Frazier & Deeter is the only advisory firm with two former high-ranking members of the PCAOB Inspection Division providing these services to the public accounting community.

AQAS can assist registrants with pre-inspection reviews, post-inspection support and on-going quality control development and improvement. The team is available to be on site during the inspection process to address concerns of the PCAOB. In addition, AQAS can help with drafting responses to public and non-public portions of inspection reports and develop remediation plans as needed.

### PRE-INSPECTION REVIEWS

These reviews entail performing a sampling of firm engagements to determine areas that may raise questions or concerns in the mind of PCAOB reviewers.

### POST-INSPECTION SUPPORT

This service can take one or more of the following forms – Assisting or advising the firm in drafting its response to the PCAOB comment forms, reviewing the PCAOB draft report and assisting the firm in formulating its response letter, or advising the firm in implementing changes to its system of quality control based on the results of the PCAOB inspection.
